

Parkview Cardiology and the Fort Wayne Fire Department present

# Orthopedic Care:

## Injury Prevention • Injury Treatment • Rehabilitation

### Health and Wellness in the Public Safety Arena

#### Presenters:

**Carol S. Bennett, Physical Therapist**  
**Fort Wayne Orthopedics**

**Dr. Michael R. O'Donnell, DC**  
**Back In Action Chiropractic**

**Dr. Robert M. Shugart, MD**  
**Fort Wayne Orthopedics**

The physical nature of a Public Safety professional's job includes the inherent risk of injury. The most prevalent injuries sustained by first responders are musculoskeletal injuries in the form of strains, sprains, tears and fractures.

This free seminar is designed to educate Health Care Providers, Administrators and Public Safety members about common causes of orthopedic injuries. We will examine injury prevention and post injury treatment and recovery. Participants will also learn about the importance of a job specific rehabilitation program.

Following the seminar, attendees are invited to try Fort Wayne Fire Department's Work Performance Evaluation (WPE), a fitness assessment used to measure an individual's ability to perform essential functions required to execute the duties of a sworn FWFD firefighter.

**Saturday,**  
**April 26, 2014**  
**8 a.m. - Noon**  
**Public Safety Academy/  
Ivy Tech South Campus**  
**(7602 Patriot Crossing,  
Fort Wayne, IN 46816)**

While registration is not mandatory, please let us know you are coming.
